

Up Front with the President

Fall is coming quickly and there are a lot of meets coming up! Cars will be getting that much needed attention they lacked all summer while we played.

This month's meeting will be at my house in Fairfax. We have a 59A-B engine donated by one of our members, Joe Miller, who moved away to northern Virginia. We will be taking the engine apart and checking out what may be wrong with it. Wear your old clothes and bring refreshments.

October's meeting will be a "Questions and Answers" meeting on the best places to buy parts. Come on out and voice your knowledge.

Our membership is now up to thirty-five! Let's continue to support our club and make it grow. Share your knowledge of V-8's. If you are good in certain areas and would like to help make our meetings interesting, let me know. Help is needed from everyone!

Thanks to John Hinkle for taking over the newsletter. It looks a lot better than my hand scribbled ones.

Mike Gall

WANTED !

Let's keep those classifieds and news items coming! You don't have to be the seller to place an ad. Share your information on cars and parts non-members have for sale. Call John Hinkle 978-4357.

\$\$\$ NEWS \$\$\$

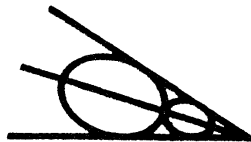

Mattos in Falls Church is offering members a generous discount on paint and supplies. Ford V-8 color matches can be obtained from the Washington store.

Now...The New **Mercury 8**

*More Power Per Pound Than Ever... New Massive Beauty...
 Luxurious New "Sky-Ride"... Plus The Miracle of Liqueumatic Drive*

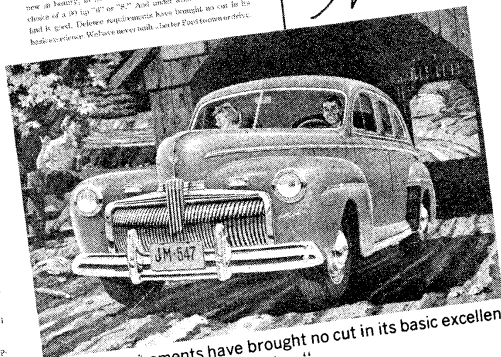

Here's an exciting new automobile—the 1942 Mercury 8. Built tough and strong. Like Uncle Sam's new war planes. It's free from excess weight. Mercury's new 116-horsepower engine delivers more power per pound than ever. You get dash and steering that assists in a car so big and heavy. Larger, longer, lines add new beauty. Larger, shock-motion springs and heavy, double-acting shock absorbers give a soft, smooth, gentle "sky-ride". And all of Mercury's traditional high-quality standards have been maintained on improved Choice Mercury for 1942 and enjoy the peace of big car ownership.

THE ALL-NEW IDEA IN AN AUTOMOBILE

1942 Mercury 8. "More power per pound than ever... New massive beauty... Luxurious new 'Sky-Ride'... plus the miracle of liqueumatic drive."

How BIG? How SMART? How COMFORTABLE?
 How New?

You will ask a lot of these you choose to show yourself. What you will ask is for what it must have today. You may ask a lot in the length of service that you put it on. You will find it in the way it is made and drive the Ford for 1942. You will find it in the way it is made and drive the Ford for 1942. You will find it in the way it is made and drive the Ford for 1942. You will find it in the way it is made and drive the Ford for 1942.

"Defense requirements have brought no cut in its basic excellence. We have never built a better Ford..."
